ELSEVIER

European Journal of Operational Research 115 (1999) 634–636

EUROPEAN JOURNAL OF OPERATIONAL RESEARCH

Contents Volume 115

1 Optimization of a large-scale scallop hanging culture operation
R.P. Pelot and J.P. Cyrus

19 Analysis of the twisting department at Superior Cable Corporation: A case study
J.C. Yingling, C.-H. Goh and R. Ganguli

36 Analysis of capacity management of the intensive care unit in a hospital
S.-C. Kim, I. Horowitz, K.K. Young and T.A. Buckley

47 Strategic options in re-engineering of a manufacturing system with uncertain completion time
J. Liu and D. Yao

59 A modeling approach to logistics in concurrent engineering
S. Dowlatshahi

77 Concurrent optimization in designing for logistics support
M.L. Hatch and R.D. Badinelli

98 Multicriteria models for the allocation of design parameter targets
R.D. Plante

113 Design of electronic assembly lines: An analytical framework and its application
R.H. Ahmadi and P. Kouvelis

138 Job challenge as a motivator in a principal–agent setting
S. Radhakrishnan and J. Ronen

158 Modeling simultaneous worker learning and forgetting in dual resource constrained systems
H.V. Kher, M.K. Malhotra, P.R. Philipoom and T.D. Fry

173 Single-machine scheduling with learning considerations
D. Biskup

179 Evaluation of three production planning procedures for the use of recipe flexibility
J.W.M. Bertrand and W.G.M.M. Rutten

195 An investigation of lead-time effects in manufacturing/remanufacturing systems under simple PUSH and PULL control strategies
E. van der Laan, M. Salomon and R. Dekker

215 Book Review
H. Fleuren (ed.)

217 Editorial
S.S. Erengüç and A.J. Vakharia

219 Integrated production/distribution planning in supply chains: An invited review
S.S. Erengüç, N.C. Simpson and A.J. Vakharia

237 Solving the medium newspaper production/distribution problem
M.G. Van Buer, D.L. Woodruff and R.T. Olson

254 An integrated inventory–transportation system with modified periodic policy for multiple products
W.W. Qu, J.H. Bookbinder and P. Iyogun

219 Integrated production/distribution planning in supply chains: An invited review
S.S. Erengüç, N.C. Simpson and A.J. Vakharia

237 Solving the medium newspaper production/distribution problem
M.G. Van Buer, D.L. Woodruff and R.T. Olson

254 An integrated inventory–transportation system with modified periodic policy for multiple products
W.W. Qu, J.H. Bookbinder and P. Iyogun

270 Demand uncertainty and supplier's returns policies for a multi-store style-good retailer
M.K. Mantrala and K. Raman
285 Lagrangian-relaxation-based solution procedures for a multiproduct capacitated facility location problem with choice of facility type
J.B. Mazzola and A.W. Neebe
300 Random lead times and expedited orders in (Q,r) inventory systems
J.H. Bookbinder and M. Çakanyildirim
314 Scheduling of resource tasks
K.H. Ecker
328 Robustness of capacity rationing policies
N. Balakrishnan, J.W. Patterson and V. Sridharan
339 A combinatorial approach to the classification problem
N. Yanev and S. Balev
351 Making the information systems outsourcing decision: A transaction cost approach to analyzing outsourcing decision problems
O.K. Ngwenyama and N. Bryson
368 Optimization models for recovery block schemes
O. Berman and U.D. Kumar
380 Minimising bins in transmission systems
T.W. Archibald, M.B. Bokkers, R. Dekker and A. van Vliet
392 Analysis of infinite servers polling systems with correlated input process and state dependent vacations
T. Lee

413 Data envelopment scenario analysis for setting targets to electricity generating plants
A.D. Athanassopoulos, N. Lambroukos and L. Seiford
429 A benchmark approach for baseball evaluation
T. Sueyoshi, K. Ohnishi and Y. Kinase
449 Productivity and customer satisfaction in Swedish pharmacies: A DEA network model
M. Löthgren and M. Tambour
459 Estimating and bootstrapping Malmquist indices
L. Simar and P.W. Wilson
472 Performance benchmarking using interactive data envelopment analysis
T. Post and J. Spronk
488 Optimization modeling for estimating and enhancing relative efficiency with application to industrial companies
M. Al-Shammari
497 Measuring efficiency with quasiconcave production frontiers
K.-P. Chang
507 A multiple criteria approach to data envelopment analysis
X.-B. Li and G.R. Reeves
518 Data envelopment analysis with a single DMU: A graphic projected-gradient approach
S. Maital and A. Vaninsky
529 Fuzzy scores of technical efficiency
J.L. Hougaard
542 A statistical test for detecting influential observations in DEA
J.T. Pastor, J.L. Ruiz and I. Sirvent
555 Efficiency estimation and error decomposition in the stochastic frontier model: A Monte Carlo analysis
J. Ruggiero

564 DEA-discriminant analysis in the view of goal programming
T. Sueyoshi
583 Side effects of absolute weight bounds in DEA models
V.V. Podinovski
596 An enhanced DEA Russell graph efficiency measure
J.T. Pastor, J.L. Ruiz and I. Sirvent
608 Qualitative company performance evaluation: Linear discriminant analysis and neural network models
K. Bertels, J.M. Jacques, L. Neuberg and L. Gatot
616 Measuring efficiency by a single price system
E. Ballestero
624 A process for generating quantitative belief functions
N. Bryson and A. Mobolurin
634 *Contents Volume 115*
